MIZORAM – An Introduction

Mizoram was previously part of Assam until 1972 when it was carved out as a Union Territory. It became 23rd state of India on 20 February 1987. The name Mizoram is derived from Mi (people), Zo (lofty place, such as a hill) and Ram (land), and thus Mizoram implies 'Land of the hill people'. As per 2011 Census, Mizoram's population was 1,091,014 and it is the 2nd least populous state of India. It covers an area of approximately 21,057 square kilometres. About 91% of the state is forest. Mizoram is a highly literate agrarian economy, but suffers from shifting cultivation (called jhum) and poor crop yields. Recently, the jhum farming is being replaced by horticulture and bamboo products industry.

Chimtuipui, also known as Kaladan or Koladyne, is the biggest river of Mizoram. It originates in Chin state in Myanmar and passes through Siaha and Lawngtlai districts in the southern tip of Mizoram and finally goes back to Myanmar. Vantawng Falls is biggest waterfall in the state and 13th highest in the country.

Dampa Tiger Reserve is a splendid Wildlife Sanctuary and located amidst the deep and dense forests of Mizoram. Phawngpui National Park is a gorgeous conservatory forest housing several rare animals and birds. It also includes several species of birds and animals such as the Asiatic black bear and black eagle.
