OFFICE MEMORANDUM

Subject: Functioning of Government Expenditure System during the operation of preventive measures to contain the spread of COVID-19.

Attention is invited to DOPT OM No 11013/9/2014-Estt- (A-III) Dated 22.03.2020 regarding preventive measures to contain the spread of COVID-19

2. In the present situation, the smooth and normal functioning of the Government Expenditure System is critical to safeguard the public interest. Therefore, the expenditure functions of Government in general and the Integrated Finance Divisions (IFD) of Ministries /Departments and Office of Controller General of Accounts (CGA) in particular, are essential services. Indeed, in certain sectors, the expenditure systems may have to function more quickly than normal to cope with the emerging needs

3. Accordingly the following clarifications, with specific reference to IFDs & CGA, are issued.

a. Absence of staff shall not be a reason for any delay or non-functioning of the payment and accounting systems.

b. Pay and Accounts Offices and other offices dealing with payments shall remain open during working hours.

c. Financial Advisors and field offices of the CGA (Pr. CCA, CCA, CA, PAO etc) shall attend office as per normal schedule to ensure coordination and supervision and shall issue suitable instructions for the presence of others as necessary to achieve these objectives.

d. The above shall be kept in view by Financial Advisers and the Office of CGA when drawing up the roster, etc as prescribed in the OM referred to above

Guidelines for home quarantine

Scope

Detection of a travel related/unrelated suspect case of novel Coronavirus Disease (COVID-19) will be followed by rapid isolation of such cases in designated health facilities and line listing of all contacts of such cases. Home quarantine is applicable to all such contacts of a suspect or confirmed case of COVID-19.

This intervention will be limited to the initial phase of India reporting only (i) travel related cases and (ii) focal clusters arising from a travel related/unrelated case where cluster containment strategy is adopted (iii) Persons coming from COVID-19 affected areas where local and community transmission is evident.

Definition of contact

A contact is defined as a healthy person that has been in such association with an infected person or a contaminated environment as to have exposed and is therefore at a higher risk of developing disease.

A contact in the context of COVID-19 is:

- A person living in the same household as a COVID-19 case;
- A person having had direct physical contact with a COVID-19 case or his/her infectious secretions without recommended personal protective equipment (PPE) or with a possible breach of PPE
- A person who was in a closed environment or had face to face contact with a COVID-19 case at a distance of within 1 metre including air travel;

The epidemiological link may have occurred within a 14-day period before the onset of illness in the case under consideration.

Instructions for contacts being home quarantined

The home quarantined person should:

Stay in a well-ventilated single-room preferably with an attached/separate toilet. If another family member needs to stay in the same room, it's advisable to maintain a distance of at least 1 meter between the two.

- Needs to stay away from elderly people, pregnant women, children and persons with co-morbidities within the household.

- Restrict his/her movement within the house.
- Under no circumstances attend any social/religious gathering e.g. wedding, condolences, etc.

He should also follow the under mentioned public health measures at all times:

- Wash hand as often thoroughly with soap and water or with alcohol-based hand sanitizer
- Avoid sharing household items e.g. dishes, drinking glasses, cups, eating utensils, towels, bedding, or other items with other people at home.
- Wear a surgical mask at all the time. The mask should be changed every 6-8 hours and disposed off. Disposable masks are never to be reused.
- Masks used by patients / care givers/ close contacts during home care should be disinfected using ordinary bleach solution (5%) or sodium hypochlorite solution (1%) and then disposed of either by burning or deep burial.
- Used mask should be considered as potentially infected.
- If symptoms appear (cough/fever/difficulty in breathing), he/she should immediately inform the nearest health centre or call 011-23978046.

Instructions for the family members of persons being home quarantined

- Only an assigned family member should be tasked with taking care of the such person
- Avoid shaking the soiled linen or direct contact with skin
- Use disposable gloves when cleaning the surfaces or handling soiled linen
- Wash hands after removing gloves
- Visitors should not be allowed
- In case the person being quarantined becomes symptomatic, all his close contacts will be home quarantined (for 14 days) and followed up for an additional 14 days or till the report of such case turns out negative on lab testing

Environmental sanitation

- a) Clean and disinfect frequently touched surfaces in the quarantined person's room (e.g. bed frames, tables etc.) daily with 1% Sodium Hypochlorite Solution.
- b) Clean and disinfect toilet surfaces daily with regular household bleach solution/phenolic disinfectants
- c) Clean the clothes and other linen used by the person separately using common household detergent and dry.

Duration of home quarantine

- a) The home quarantine period is for 14 days from contact with a confirmed case or earlier if a suspect case (of whom the index person is a contact) turns out negative on laboratory testing
